MANAGING DIRECTOR'S MASSAGE

We are part of Al Jabor Trading and are committed to provide the full range of construction materials under one umbrella.

A division for the manufacture of construction chemicals has been established to fulfill the market demand and to keep long term business relationship with our valid customers by providing quality products and services.

- Nawaf Bin Jabor Al-Thani
CIKO Middle East, a Qatar based company, established in year 2006 enjoys an excellent Reputation in construction sector for the manufacture and supply of unchallenged premium quality construction chemicals supplied all over Middle East.

The range of products CIKO Middle East offers includes Concrete and Mortar Admixtures, Waterproof Coatings, Grouts, Floor Coatings & Systems, Repair Materials, Adhesives & Bonding Agents etc.

The products supplied by CIKO Middle East are manufactured under stringent quality control methods and techniques from selection of raw materials to finished products and its storage.

The manufacturing is based on latest process techniques with advanced equipment and supporting utilities.

Well qualified and skilled manpower team forms the core of CIKO Middle East’s success in the supply of quality products and excellent service to its customers.

CIKO Middle East continues to provide unique and effective chemical solutions to its valuable customers.
OBJECTIVES

CIKO Middle East strives to provide full range of construction chemicals inside and outside Qatar. The construction segment caters to industrial & commercial buildings, infrastructure construction and individual villa construction.

ECO-FRIENDLY

CIKO Middle East is an Eco-friendly company dedicated towards a Sustainable for the nation through cost efficient and energy saving Green Buildings.

CIKO Middle East has paved its way to produce eco-friendly LEED complied products that provides clients a concise framework for identifying and implementing practical measurable Green Building design, construction, operations and maintenance solutions.

VALUES

SUPPORT

CIKO Middle East quality, professionalism, and specialist support are found indispensable by many of the leading construction companies worldwide.

The reputable quality of the products and services is scrutinized to ensure seamless integration and total customer satisfaction which surpasses the most challenging expectation.

ADVANTAGES

- Quality
- Prompt Service & Delivery
- Eco-friendly products
- Specialized
- R&D department
- Trained specialized applicators
- Vast product range
CIKO Middle East has been equipped with latest technology in its manufacturing equipment and quality control systems.

**PRODUCT RANGE:**

- Concrete Admixtures & Additives
- Water proof & damp proof coatings
- Surface treatment products
- Industrial Floorings & Toppings
- Grouts
- Adhesives & Bonding Agents
- Concrete repair Materials
- Deck & car park coating materials
- Protective coatings & Sealers
- Joint Sealers & Molding compounds
- Poly propylene Protection Boards.
- Polypropylene Temporary protection.
- Modified Bituminous membranes Nord BITUMI
- Suplethane France

The manufacturing unit in the new Doha industrial area produces high quality construction chemicals. Products are manufactured in strict accordance with national and international standards.

CIKO Middle East has adopted a high degree quality control system to produce consistent quality products.

It is also equipped with experienced technical expertise to provide the best solutions and services to our valued customers.
